

World's first Interactive MOBILE SCHOOL

# GYAN RATH

EDUCATION FOR ALL, EDUCATION AT YOUR DOORSTEP

Actual Photograph taken in a remote village

We at DISPRO VISUALTECHNOLOGIES Ltd' are proud to offer unique educational solution in remote areas like hilly areas, remote villages, slum areas where there is no school buildings, no class rooms, no teacher, not even blackboard, no power supply, our **GYAN RATH** can impart education at their door step. We all know very well how Govt (central or state) sponsored projects take place and work. Even today in all major Indian cities, conditions in almost all Govt schools are very pathetic, what happens in small towns is everybody guess. We see very big social gap between rich and poor and at education level situation is the worst.

That prompted us to design this unique multi purpose **MOBILE SCHOOL** to benefit millions of deserving children. This can be used for ADULT EDUCATION, AIDS PREVENTION, FAMILY PLANNING campaign as well. **God has given SPARK in everybody, we have to ignite this through education - S.K.GARG**

Basic concept is our time tested and highly successful **DAYLIGHT MOBILE VIDEO VAN** (8 AM to 8 PM) is now fitted with INTERACTIVE **INTENSAA** screen with **ePen** plus other A/V Equipments, PC, video player fitted into a van., A trained teacher can conduct classes in many locations/villages in a single day. Using latest readily available educational, recreational softwares he can conduct classes in various subjects and standards. This not only become a big attraction for kids, they learn very fast from fully integrated audio visual medium then ordinary blackboards and chalks. Kids will enjoy writing in multi colours using **ePen** in their own languages. After the class is over if the kids are provided with "free biscuit packets" or "nourished meals", will ensure they come back again regularly. Shortly educational softwares will be available in regional languages to further boost this concept. Exclusive Indian solution for an Indian problem !

Complete system comprises of a suitable van with back door opening, fitted with required Audio Visual equipments, power generation equipment, outside Weather proof speakers mounted on top of the van etc. When projection is not required ,this can be used as **MOBILE LIBRARY** to further enhance its utility in remote areas. With small inexpensive games like football, basket balls, rings , other indoor games and low cost gadgets, this can meet requirement of a sports class room as well. This will attract kids for their overall attentions. Now this is a unique combination of **CLASS ROOM, LIBRARY & SPORTS.**
