

Innovation from **DISPRO**

## **VISION 100 " TV**

### **MULTIMEDIA PROJECTION TELEVISION CUM DISPLAY**

Ours is a great country of 120 crores people representing largest technical manpower in the world. India is leading in all technical fields like IT, Space, Defence, automobiles etc. We at DISPRO VISUAL TECHNOLOGIES LTD., are proud to lead the country by offering GIANT100"TV (actual size 60" x 80") designed and developed first time in India with world class display technologies.

This large screen 100" diagonal digital display is compatible with all formats of video, DVD, TV, PC, even HDTV resolutions (depending on supplied projector). Use the same as:-

- \* LARGE SCREEN TV
- \* HOME CINEMA
- \* LARGE PC MONITOR
- \* DIGITAL DISPLAY
- \* COMPLETE INTERACTIVE eBOARD

#### **DARE TO COMPARE WITH THE BEST IN THE WORLD MARKET !**

Basic unit comprises of large moulded housing fitted with rigid INTENSAA optical rear projection screen with overall size of 84" ht, 104" width and 1.2 Meter (+) depth, Fitted with four high quality speakers on both sides of screen providing matching amplified sound. The screen has widest viewing angle both horizontally and vertically thus making it highly effective for large public gathering places. Comes with high lumens XGA/SXGA (supports upto 1200x1600 res.) resolution latest LCD/DLP projector (hi definition compatible) With 2 data and 3 different video inputs thus allowing for various inputs which can be changed over from Data to video using supplied remote control. The large screen size is 25 TIMES BIGGER than normal 20" TV and 3 times bigger than 60" PLASMA DISPLAY. This huge TV (will pass through most standard doors in unassembled condition) has to be assembled at location by our trained technicians. Budgetary price starts from Rs 6,50,000/- (similar size PLASMA DISPLAY costs 5 times more & 108" LCD TV 15 times) onwards.

For high contrast screen, additional amplifier with mike inputs, PC audio inputs, cordless collar mike, DLP projector with SXGA +(1400x1050 reso.) resolution and 24/7 non stop working projector, costs will be extra. Demo is available on all working days with prior appointment. Plus VAT and one time nominal installation charges extra (Locally it is free in Hyderabad /Secunderabad). We can design and make any large size custom built projection display from 80" to 150"(upto 200") diagonal in various configurations to meet individual requirements. Ask for firm quotation. Contact us for further clarifications. Now 103"PLASMA DISPLAY costs cool Rs. 36.0 lakh each unit which is also very bulky at 350 kgs whereas our above Giant TV can be easily dismantled, transported and assembled at site. We proudly demonstrated this unique display at IITF 2007 at Pragati Maidan New Delhi between 14 -- 27 Nov which amazed lakhs of visitors with Giant size and clarity in very high ambient light. Now this is also available with complete INTERACTIVE function ( one of the world's largest such display) with e- pen, software..
