

# DISPRO 3D SMART KIDS

**We are proud to offer world's first 3D Edutainment** system, comprises of 3D stereoscopic content (our Indian syllabus) with large screen passive 3D Projection system for India's new Generation kids. Now it is possible to have IMAX quality 3D mini Theatre in Indian schools. With this set 40-50 students (& teachers) can enjoy 3D cinema like Educational system (made possible by us after years of R & D in both 3D hardwares and softwares). Our smart Indian kids deserve **'the Best'** in education to grow as national human asset. Kids and teachers all enjoy dancing 3D stereo alphabets, fruits, objects coming out of the screens with matching music. This can even be upgraded with most advanced **CYBERSCIENCE 3D** for **K-12 classes**, fully interactive subjects (at extra costs).
